## Skills

**Languages** C + +, JavaScript, Python, Java

**Frontend** HTML, CSS, React, Tailwind, Bootstrap, Next

**Backend** Node.js, Express, Socket.IO

**Databases** MongoDB, MySQL

**OS** Ubuntu, Cent OS, Windows

**Testing** git, Docker, Postman

## Experience

### Coding Ninjas

Aug 2024

*Teaching Assistant (Backend)*

- Assisted students to understand core programming concepts and solve complex problems.
- Conducted doubt-clearing sessions and provided feedback to improve coding efficiency.
- Collaborated with instructors to improve the course content and improve the learning experience.
- Helped students with their project debugging and provided mentoring to ensure successful course completion.

### Timidlly

Aug 2021 - Oct 2021

*Frontend Developer*

- Developed user-friendly and responsive interfaces using HTML, SASS, JavaScript, and React.
- Collaborated with designers to translate wire frames and prototypes into functional web pages.
- Debugged and resolved front-end issues to ensure cross-browser compatibility.
- Worked with the back-end team to integrate APIs and ensure a seamless data flow.

## Education

### Maulana Azad National Institute of Technology

2023 - 2026

*Master of Computer Application*

#### Key Academic Areas of Focus

- Networking
- Operating Systems
- Database Management Systems (DBMS)
- Software Engineering

### Patliputra University

2020 - 2023

*Bachelor of Computer Application*

## Projects

### Renters Application

- Developed a platform for landowners to upload rooms for rent and renters to apply for bookings.
- Enhanced visibility of payment records with editing permissions for landowners.
- Allowed landowners to update profiles and room details anytime.
- Managed payment history with full control for landowners.
- Technologies used: React, Tailwind CSS, Express.js, MVC architecture, MongoDB Atlas, JWT, Node-mailer

### StoreFleet

- Developed a robust e-Commerce back-end using the Model-View-Controller (MVC) architecture.
- Implemented user authentication, product catalog management, and order processing services with full CRUD operations.
- Developed and integrated CRUD functionality for user accounts, product listings, and order management.
- Ensured a modular structure to allow easy addition of future features.

## Certifications

- **React** - Coding Ninjas (2024)
- **Back-end** - Coding Ninjas (2024)
- **MERN Stack Development** - Udemy (2021)
